MYM NATURAL STONE

WHO ARE WE?

We as MYM NATURAL STONE; with unique beauty of natural stone; to make your dreams come true, in all areas you want to see; we offer to you in various size and color.

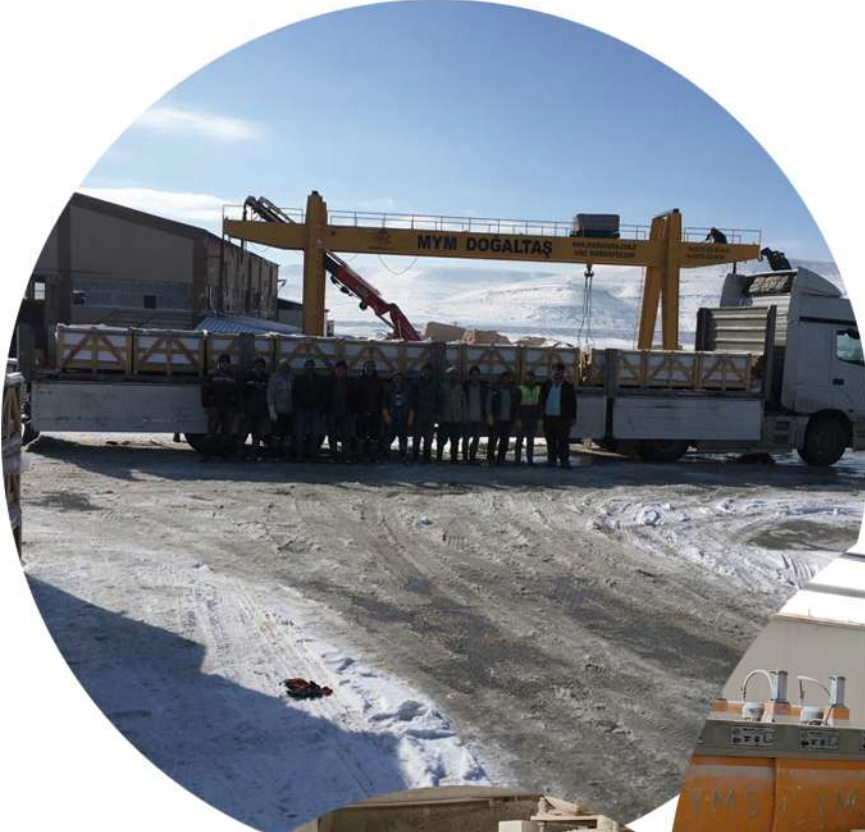

With our expert staff, high technology and high production capacity we are ready to be in your local and international projects.

MYM Natural Stone is a manufacturer and exporter company which has been serving in marble sector since 2006. MYM Natural Stone continues its production in its factory in Afyonkarahisar which is the center of Natural Stone production. With the understanding of high quality products and high quality service, it provides customers satisfaction and growing rapidly in the sector.

EXPERT STAFF AND SERIAL PRODUCTION

WHY TO CHOOSE NATURAL STONE ?

Natural stone reflects unique character, stability, and grandeur therefore it is highly used as a premier building material. Natural stone has broad range of color, pattern, and texture variations which makes it visually interesting and unique. It is also eco-friendly from its journey from the quarry to the living places since it comes from the nature.

The diversity of natural stone encourages creativity to sector professional by giving endless design options. Design projects should stand out and reflect the desire, perception, and personality of the designer. Natural stone is an inimitable building material that sets you apart from others because it can't be copied or produced, or falsified. Natural stone is a durable building material that stays for centuries as we can even see them in ancient cities. All these aspects as well as constancy and ease of care make natural stone valuable and useful choice and reasonable investment.

✓ ALL NATURAL ✓ DURABLE

TEST RESULTS

Travertine ASTM Test Results

ASTM C 97 - Absorption (%) and Density (g./cu.cm.)

	#1	#2	#3	#4	#5	Avg.
Absorption	3.80	4.01	4.21	3.83	3.62	3.89
Density (g./cu.cm.)	2.339	2.333	2.334	2.353	2.371	2.346

ASTM C 170 - Compressive Strength (psi)

Conditions: Dry and Perpendicular to Rift						
	#1	#2	#3	#4	#5	Avg.
Compressive Strength	11.380	11.120	11.720	11.780	11.070	11.410

ASTM C 666 - Resistance to Freeze Thaw

Duration: 300 Cycles	#1	#2	#3	Avg.
Weight Loss (%)	PASS	PASS	PASS	PASS

ASTM C 1028 - Coefficient of Friction

Readings: Twelve						
	Avg.					
Coefficient of Friction (dry)	1.42					
Coefficient of Friction (wet)	1.16					

Official Test Results documents will be provided upon request.
